Amalgamation of the Female Dispensary with the District Hospital at Kolar.

With reference to your office No.B.9192 dated 16th instant, I have the honour to state that the Female Dispensary at Kolar belongs to Government and is being maintained by the Public Works Department. Both the District Board and Kolar Town Municipality have contributed their usual quota towards the cost of the building viz., 1/3 the cost. The capital cost of the building is Rs11,353 The President, Kolar Town Municipal Council, has been addressed to intimate the amount that may be realised by its sale at present.

The cost of making necessary additions and alterations to the District Hospital as per estimates forwarded with this office Camp No.216 dated 16th June 1922 to the Senior Surgeon for his countersignature amounts to Rs12454/- The Senior Surgeon has proposed to meet this amount from the sale proceeds of the existing Female Dispensary and also Rs1,500 sanctioned lately, for constructing a waiting room in this Dispensary for Gosha ladies.

Sir,

With reference to your No.L.239 dated 12-7-1922 and subsequen reminder No. L.3175 of 25-10-1922, requesting to report, the amount that may be realised by the sale of the Dispensary for Women at Kolar, I have the honour to inform you that it is reported by the Executive Engineer, Kolar Division that, the buildings as they are, are not suitable for residential purposes and as such they may not fetch a high price and that, from enquiries made, he thinks about 6 to 7 thousand rupees or even MXKS slightly more may be realised.

He further states that the buildings are suited for office purposes and their capital cost is Rs 11,353/- and that they may be given to the Municipality at their book value or used for the location of the office of District Inspector of Education which is, at present, being held in a rented building.

I do not agree that the buildings are unsuitable as residences. They may fetch a larger sum than that mentioned as they are centrally situated. They are very unsuited, as regards locality, for women patients and both wards are empty today. There is little doubt the wards would be better patronised if they were within the compound of the Civil Hospital, where the Senior Surgeon wishes to build them.

I would suggest that we put up the buildings for auction and

if we get a good offer we can agree to hand them over to the purchaser after the new block is completed or else the Senior Surgeon may be asked to do without the wards and deal with patients at the Civil Hospital until such time as the new wards are built from the money obtained from the present building.

I do not suppose any great inconvenience would be felt if there were no wards for a few months as the American Mission Memorial Hospital for women can deal with the cases in the meantime.
